SUMMARY

DevOps Engineer with 4+ years of IT experience specializing in **AWS, Kubernetes, Docker, Terraform, CI/CD, Linux, and Shell automation**. Experienced in building deployment pipelines, managing cloud infrastructure, automating operational tasks, and supporting production environments. Hands-on experience with enterprise Java middleware including WebSphere, WebLogic, JBoss, and Tomcat.

SKILLS

DevOps: Jenkins, GitHub Actions, Git, Maven, Docker, Kubernetes
Cloud: AWS — EC2, EKS, S3, EBS, ALB/ELB, IAM, VPC, Auto Scaling, Lambda, CloudWatch
IaC: Terraform
Tools: ServiceNow, Remedy, Jira
Scripting: Shell/Bash, Python
Monitoring: Prometheus, Grafana, CloudWatch, Splunk, OEM, Observe
Middleware: WebSphere, WebLogic, JBoss, Tomcat, IBM HTTP Server, AHS
Messaging: WebSphere MQ, Kafka
Security: SSL/TLS, LDAP, TAM, TDS, IKeyMan, IAM, IBM ISAM.

EXPERIENCE

DevOps Engineer
Worldpay Pvt. Ltd, Pune. May 2025 – Present.

- Built and maintained **CI/CD pipelines using Jenkins and GitHub Actions** for 15+ Java microservices, reducing release cycle time by 35% and automating multi-environment deployments.
- Containerized Java applications using **Docker** and deployed workloads on **Kubernetes/EKS**.
- Provisioned and standardized multi-region **AWS infrastructure (EKS, EC2, ALB, VPC) via modular Terraform** scripts, cutting environment provisioning time from days to under 45 minutes.
- Configured **Prometheus, Grafana, and CloudWatch** alerting dashboards for EKS clusters, reducing Mean Time to Detect (MTTD) by 30% across production workloads.
- Developed **Shell automation** for deployment validation, health checks and log monitoring across 400+ **production** servers, reducing manual operational effort.
- Collaborated with **development and QA teams** in Agile environments to improve release reliability and CI/CD adoption.
- Managed Kubernetes resources including **Deployments, Services, ConfigMaps, Secrets, Ingress, Service Accounts and RBAC**.
- Supported production incidents, **RCA, JVM troubleshooting, DR activities and 24×7 operations** across enterprise environments.
- Built **OEM, Splunk and Observe dashboards and monitors** for cluster and application health.

DevOps Engineer
Tata Consultancy Services Limited, Pune | Dec 2021 – May 2025

- Built and maintained **Jenkins CI/CD pipelines** for enterprise Java applications, including deployment and rollback activities.
- Automated **health checks, routine log rotation, and server patching using Shell scripting and cron jobs**, reducing repetitive administrative overhead by 40%.
- Supported **Docker and Kubernetes deployments**, including rolling updates and application scaling.
- Managed **Linux production servers**, including patching, troubleshooting, performance tuning and capacity planning.
- Supported AWS environments using **EC2, EKS, ALB, IAM, VPC and CloudWatch**.
- Administered **enterprise middleware platforms (IBM WebSphere, JBoss, Tomcat, MQ) across 200+ instances, maintaining 99.9%** uptime for core banking/transaction services.
- Performed **SSL certificate management, JVM tuning, Java upgrades, middleware configuration and production hardening**.
- Diagnosed and resolved critical P1/P2 production incidents **(OOM, thread deadlocks, GC latency)** using heap/thread dumps, improving mean time to resolution **(MTTR)** by 25%.

CERTIFICATIONS & TRAINING

• AWS Certified Cloud Practitioner (CLF-C02) • IBM WebSphere Application Server Administration • IBM MQ System Administration

• Apache Kafka Administration & Architecture

EDUCATION

B.E. — Civil Engineering, Sinhgad Institute of Technology & Science, Pune | 2018 – 2021
Diploma — Civil Engineering, Vishweshwarayya Polytechnic, Latur | 2015 – 2018
