SUMMARY

DevOps Engineer with **4+ years of IT experience** and strong expertise in CI/CD, AWS, Docker, Kubernetes, Terraform, Linux, and automation using Shell. Experienced in building deployment pipelines with Jenkins and GitHub Actions, managing cloud infrastructure, and improving application reliability and operational efficiency. Hands-on background supporting enterprise **middleware** platforms like IBM WebSphere, JBoss, Oracle WebLogic, and Apache Tomcat in large-scale production environments.

TOOLS & TECHNOLOGIES

DevOps Tools: Jenkins/GitHub Actions, Git, Maven, Docker, Kubernetes.
Cloud: AWS (EC2, EKS, S3, EBS, ELB, Auto Scaling, Lambda).
Infrastructure as Code: Terraform
Middleware: WebSphere, JBoss, WebLogic, Tomcat, IBM HTTP Server, AHS
Scripting: Shell Scripting (Bash)
Monitoring: Prometheus, Grafana, CloudWatch.
Messaging: WebSphere MQ, Kafka.
Security: SSL/TLS, LDAP, TAM, TDS, Ikey Man, IAM, IBM ISAM
OS: Linux (RHEL/Ubuntu)
Other Tools: ServiceNow, Remedy, Jira.

EXPERIENCE

DevOps Engineer **Worldpay x Global Payments PVT LTD, Pune** **May2025 - Present**

- Implemented **CI/CD pipelines using GitHub Actions** and **Jenkins, automating build, test, and deployment workflows** for **Java applications.**
- Containerized **Java applications** using **Docker** and deployed workloads on **Kubernetes (EKS),** enabling scalable, **highly available**, and resilient **microservices**.
- Provisioned and managed **AWS infrastructure (EC2, EKS, S3, EBS, ELB, Auto Scaling, IAM, VPC, lambda)** using **Terraform (Infrastructure as Code)** for consistent and repeatable **deployments.**
- Implemented monitoring and alerting using **CloudWatch**, **Prometheus**, and **Grafana**, improving **observability** and reducing **Mean Time to Resolution (MTTR).**
- Developed **Shell automation scripts** for **deployment**, **health checks**, **log monitoring**, and **routine operational** tasks while administering **Linux servers**, **troubleshooting production issues**, and performing system performance tuning.
- Collaborated with development and QA teams **in Agile environments** to improve deployment frequency**, release reliability**, and **CI/CD adoption.**
- Managed Kubernetes resources including **Namespaces, Deployments, Services**, **ConfigMaps**, **Secrets, Ingress, Service Accounts**, and **RBAC policies** for **secure** and **reliable** application deployments.
- Provided **24×7 production on-call support**, proactively resolving infrastructure and application issues while maintaining **high availability** and **service reliability.**
- Worked with **enterprise Java middleware platforms (IBM WebSphere, JBoss, Oracle WebLogic, Apache Tomcat, IBM HTTP Server)** to support application **hosting, deployments** and **production stability.**
- Performed **Root Cause Analysis (RCA)** for production incidents **using logs, thread dumps, heap dumps, and JVM diagnostics**, resolving issues such **as OutOfMemory errors, hung threads, and CPU spikes**.

DevOps & Middleware Engineer **Tata Consultancy Services Limited, Pune** **Dec-2021 to May-2025**

- Built and maintained **CI/CD pipelines** using **Jenkins** to automate build, deployment, rollback, and release activities for enterprise **Java applications**, reducing deployment time and manual intervention.
- Worked with Git for source code management and collaborated with development teams to **support CI/CD workflows, release management, and deployment automation**.
- **Automated deployment** and operational tasks **using Shell scripting**, improving deployment consistency, production **health checks, log analysis, and routine maintenance.**
- Containerized Java applications using **Docker** and supported **Kubernetes** deployments, gaining hands-on experience with **container orchestration, rolling updates, and application scaling**.
- Managed **Linux production servers**, performing system **administration, troubleshooting**, **patching**, performance **tuning**, and **capacity planning**.
- Implemented proactive monitoring and alerting using **Shell scripts, cron jobs**, and enterprise **monitoring tools to detect CPU**, **memory, disk, JVM, and application issues**, improving **production reliability**.
- Performed **Site Reliability Engineering (SRE)** activities including incident response, production troubleshooting, Root Cause Analysis (RCA), problem management, post-incident reviews, and continuous service reliability improvements.
- Collaborated with Development, QA, and Infrastructure teams in **Agile environments to automate deployments**, improve **release quality**, enhance **production stability,** and **reduce Mean Time to Resolution (MTTR)**.
- Supported enterprise Java **middleware** platforms including **IBM WebSphere, JBoss, Apache Tomcat, IBM HTTP Server, and IBM WebSphere MQ in Linux production environments.**
- Performed middleware installation, configuration, JVM tuning, Java upgrades, **SSL certificate management**, and production hardening to ensure **secure and stable application** environments.
- Supported **Disaster Recovery (DR)** activities, production **failover testing**, and **environment validation** to ensure business continuity and application availability
- **Analysed thread dumps, heap dumps, GC logs, and JVM metrics** to resolve production issues **including OutOfMemoryError (OOM), hung threads, MQ failures, CPU starvation**, and **application performance** bottlenecks.

CERTIFICATION AND TRAINING

- AWS Cloud Practitioner (CLF-C02) [**LINK**]
- IBM official WebSphere Application Server Training
- IBM official MQ Admin training
- Apache Kafka training

ACHIEVEMENTS

- Recognized by TCS with the prestigious XCELERATE Warrior Award gaining the title kickstarts your journey towards achieving your aspiration for continue success in journey
- Commended by TCS with the Applause for Team Award, recognized as a role model to colleagues

EDUCATION

- **Diploma :**
- Vishweshwarayya Polytechnic, Tq. Almala, Dist Latur - 413512 06/2015 - 6/2018. Courses Civil Engineering

- **Bachelor's of Engineering :**
- Sinhgad Institute of Technology & Science, Pune - 411041 06/2018 - 6/2021, Courses Civil Engineering
